

Minority Corporate Counsel Association (MCCA) CLE Expo in San Diego, CA

Sanjay Bansal, Partner at KD is moderating a panel discussion on the labor and employment topic: What is going on at NLRB?

Session Overview: Many say the recent activity at the NLRB demonstrates an active, employee centric approach to policy. The NLRB has targeted non-organized work forces on unfair labor practices and issued a series of decisions limiting the right of employers to discipline employees for statements made about the company in social media and the confidentiality of investigations. What can we expect in the coming years and what will be the impact of NLRB decisions regarding concerted activity?

Moderator: Sanjay Bansal, Partner, Kaufman Dolowich Voluck
