

## The Minority Corporate Counsel Association (MCCA) Diversity Conference, NYC

MCCA is hosting Creating Pathways to Diversity® Conference on October 3-4, 2017 in New York City. KD representatives from the New Jersey office will be in attendance to learn to promote diversity and inclusion in the legal profession. This is the 20th anniversary of the MCCA. It is a wonderful opportunity for outreach and communication with businesses hoping to promote diversity and equal employment

opportunities.

Including a commitment to diversity, KD strongly promotes the Women's Initiative, empowering women in the legal profession. Women's networking events hosted by outside organizations, such as the MCCA, are very often attended by KD women partners and associates. Additionally, KD women attorneys take an active role in our community through associations and various civic and business organizations.

This conference will cover a wide variety of diversity issues including:

- Alternative dispute resolution (ADR)
- Mixing generations in the workplace
- Avoiding diversity fatigue
- Mandatory inclusion laws
- Plus opportunities to network with like-minded legal professionals

More information will be included as the conference gets closer. Click [here](#) to register.
