Session 5 - SE Mid-Atlantic - Creative and Emerging Coverage Trends in Florida and Beyond

This roundtable discussion focuses on noteworthy law from Florida and other jurisdictions with a focus on creative and emerging coverage trends. Topics to be discussed include:

- Coverage for otherwise non-covered property damage such as rip and tear costs
- Coverage for preventative measures and triggering coverage to repair defective work to prevent ongoing covered property damage; arguing multiple occurrences; concurrent causation; waiver and estoppel; and non-compliance with policy renewal statutes.

We will also discuss strategies to combat Florida's unique non-contribution law. The perspective of insurance representatives in resolving difficult claims will be presented as well as non-traditional settlement structures such as by loan receipt and use of consent judgments.
