

EB-5 Investor Based Immigration Conference

EB-5 Investor Based Immigration Conference

October 8, 2015

The DoubleTree

120 South Los Angeles Street

Los Angeles, CA 90012

Investment (Employment) Based Immigration: EB-5, created by the Immigration Act of 1990, provides a unique opportunity for foreign nationals to invest in companies in the United States and acquire permanent resident status for themselves and their dependents. This comprehensive seminar begins with an overview of the EB-5 program and addresses the requirements of each step in the process, leading to successful investments and permanent resident status for your foreign national clients. Whether you're already representing clients in the EB-5 program or are planning to add this interesting and challenging area to your practice, this program will provide you with the legal update, skills and strategies you need. Faculty includes a stellar line-up of EB-5 immigration attorneys, Regional Center representatives, economists and CPAs, and international business attorneys.
